TEMPORARY TRAFFIC CONTROL PLAN

Re: Alamitos Creek Bridge #37C0159 Replacement Project

Alamitos Creek Bridge #37C0159 along Alamitos Road is scheduled for replacement starting June 2021. The bridge is located 0.4 miles south of Bertram and Alamitos Rd intersection.

A community meeting was held on April 15, 2021. County proposed the following two options on temporary traffic control plan during construction period:

Option 1: Stage Construction: A single lane signal controlled traffic

Option 2: Complete Closure and Detour Traffic

After hearing residents' feedback on both options, County decided to proceed with Option #1.

Sincerely,

County Of Santa Clara – Roads & Airports Department
