

MacArthur Avenue Community Meeting # 2

01/30/2020

Agenda

- Introduction
- Community meeting #1 feedback
- Traffic Engineering Evaluation and Outreach
- Next Steps
- Q & A

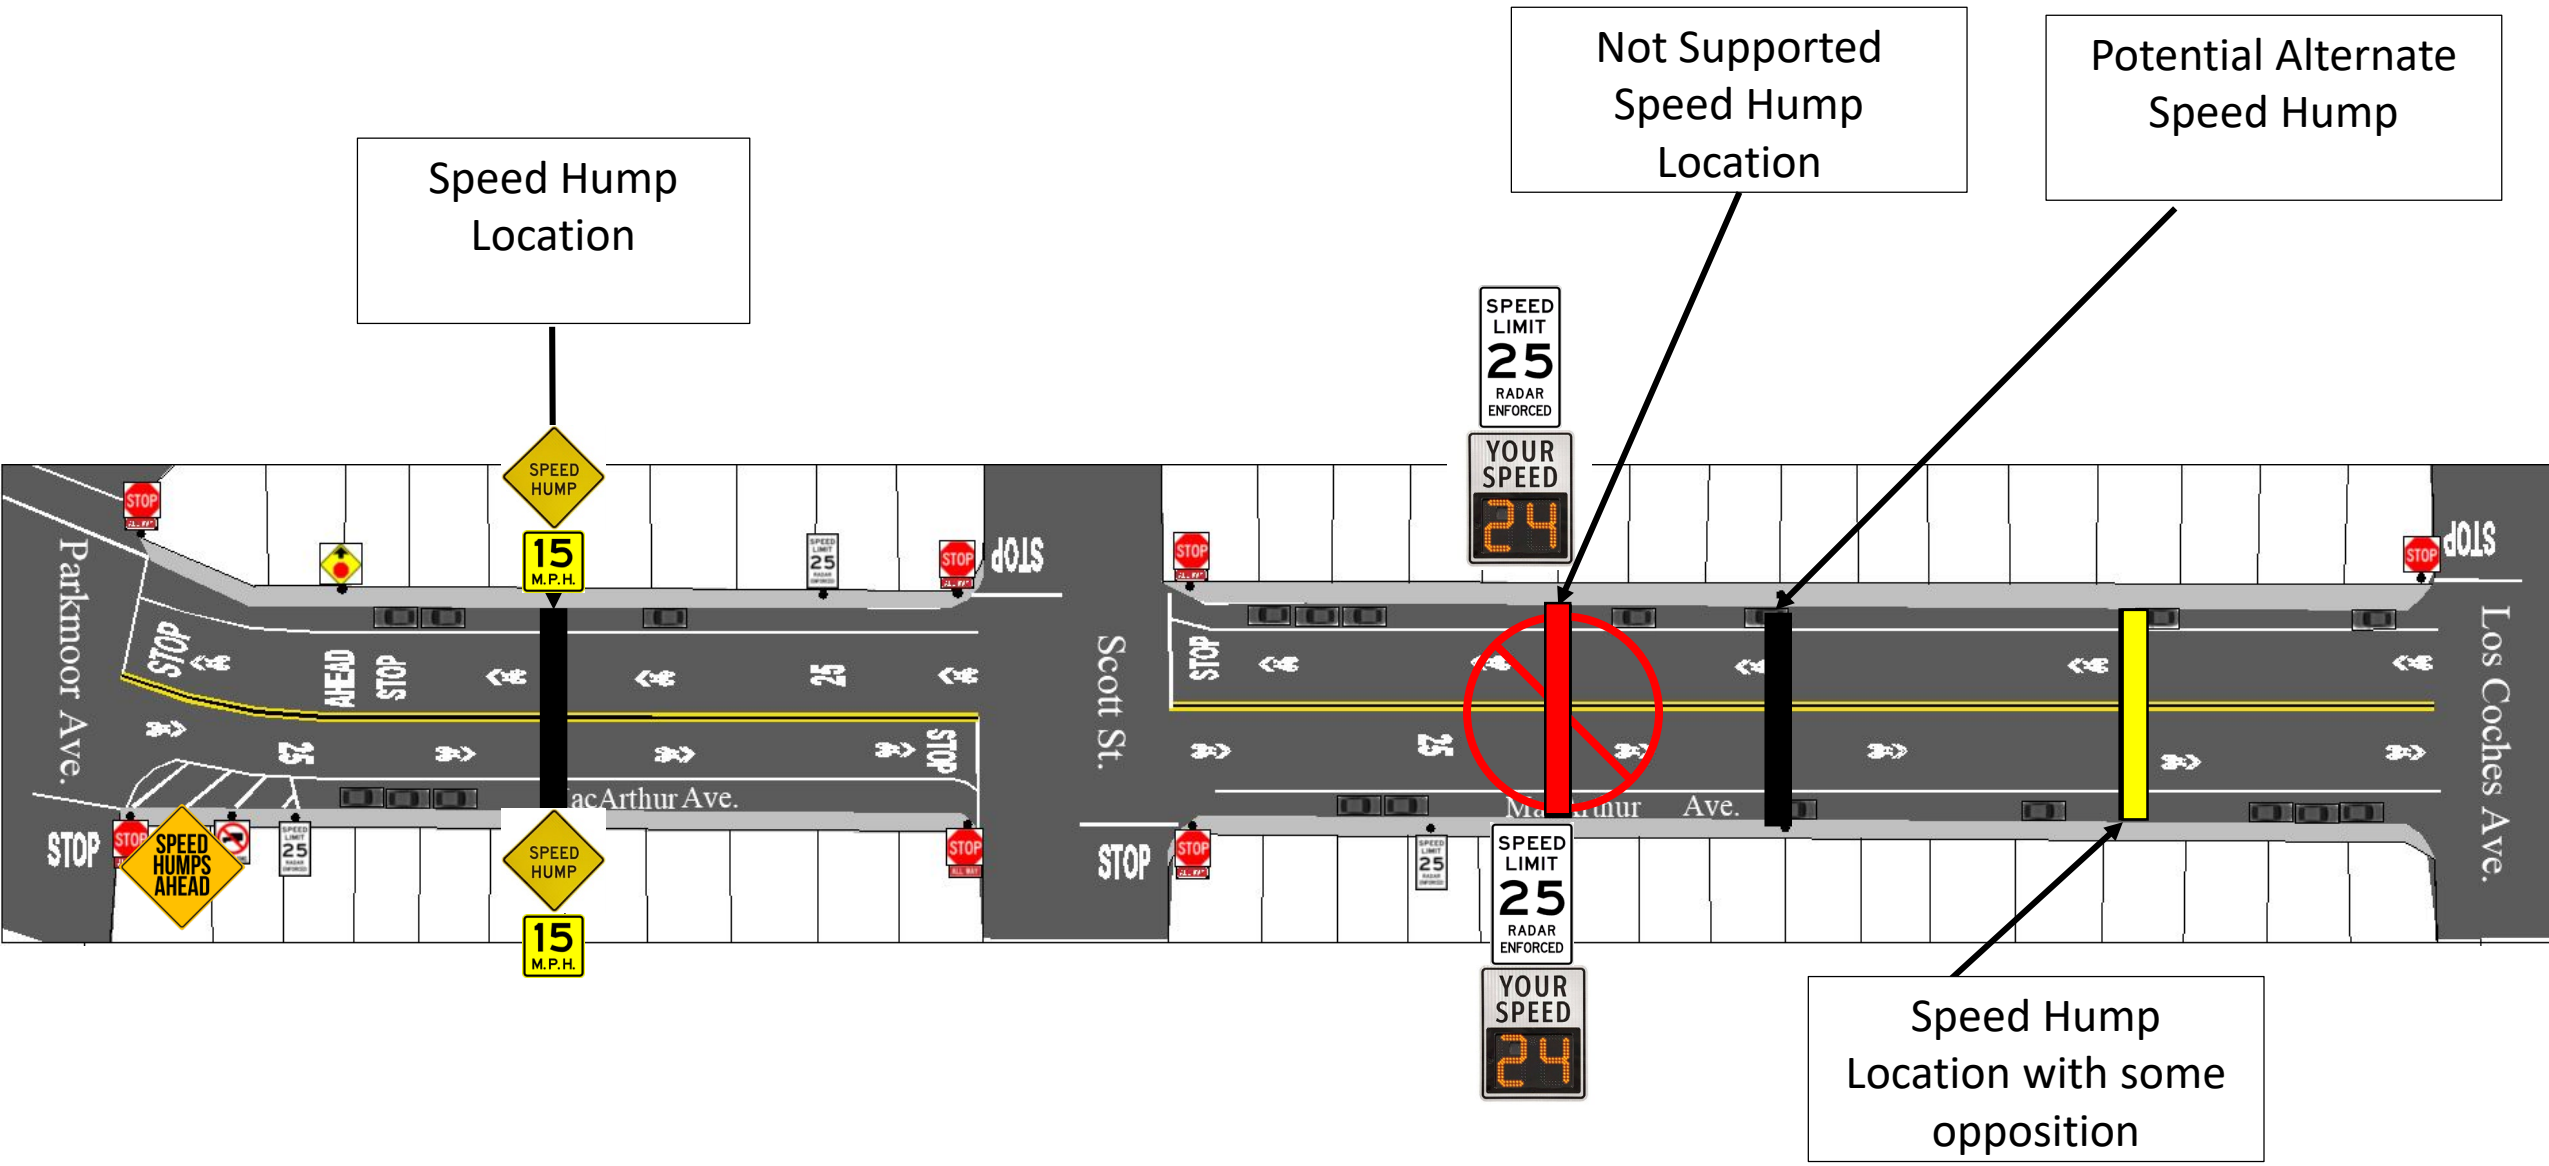

Community Meeting #1 Summary

- First Community Meeting held on October 16, 2019
- All the feedback received via post-it notes at the previous meeting and by email, were posted on the SCC Roads and Airports website and placed into the following four categories:
 1. Referred to CHP or partner agency
 2. Considered in study
 3. Out of scope
 4. Comment noted
- Majority advocated for speed humps, speed display signs, and program visibility (pv) signal head for the stop light at the intersection of MacArthur Ave and Stevens Creek Blvd.

Traffic Engineering Evaluation and Outreach

- Notification was sent on December 4, 2019 to all residents located within 100ft of the proposed speed hump locations
- The notification provided residents with information on the placement of the proposed speed humps
- In addition, Engineers went door to door to obtain maximum resident participation
- Other issues outside the County jurisdiction were referred to the respective agency

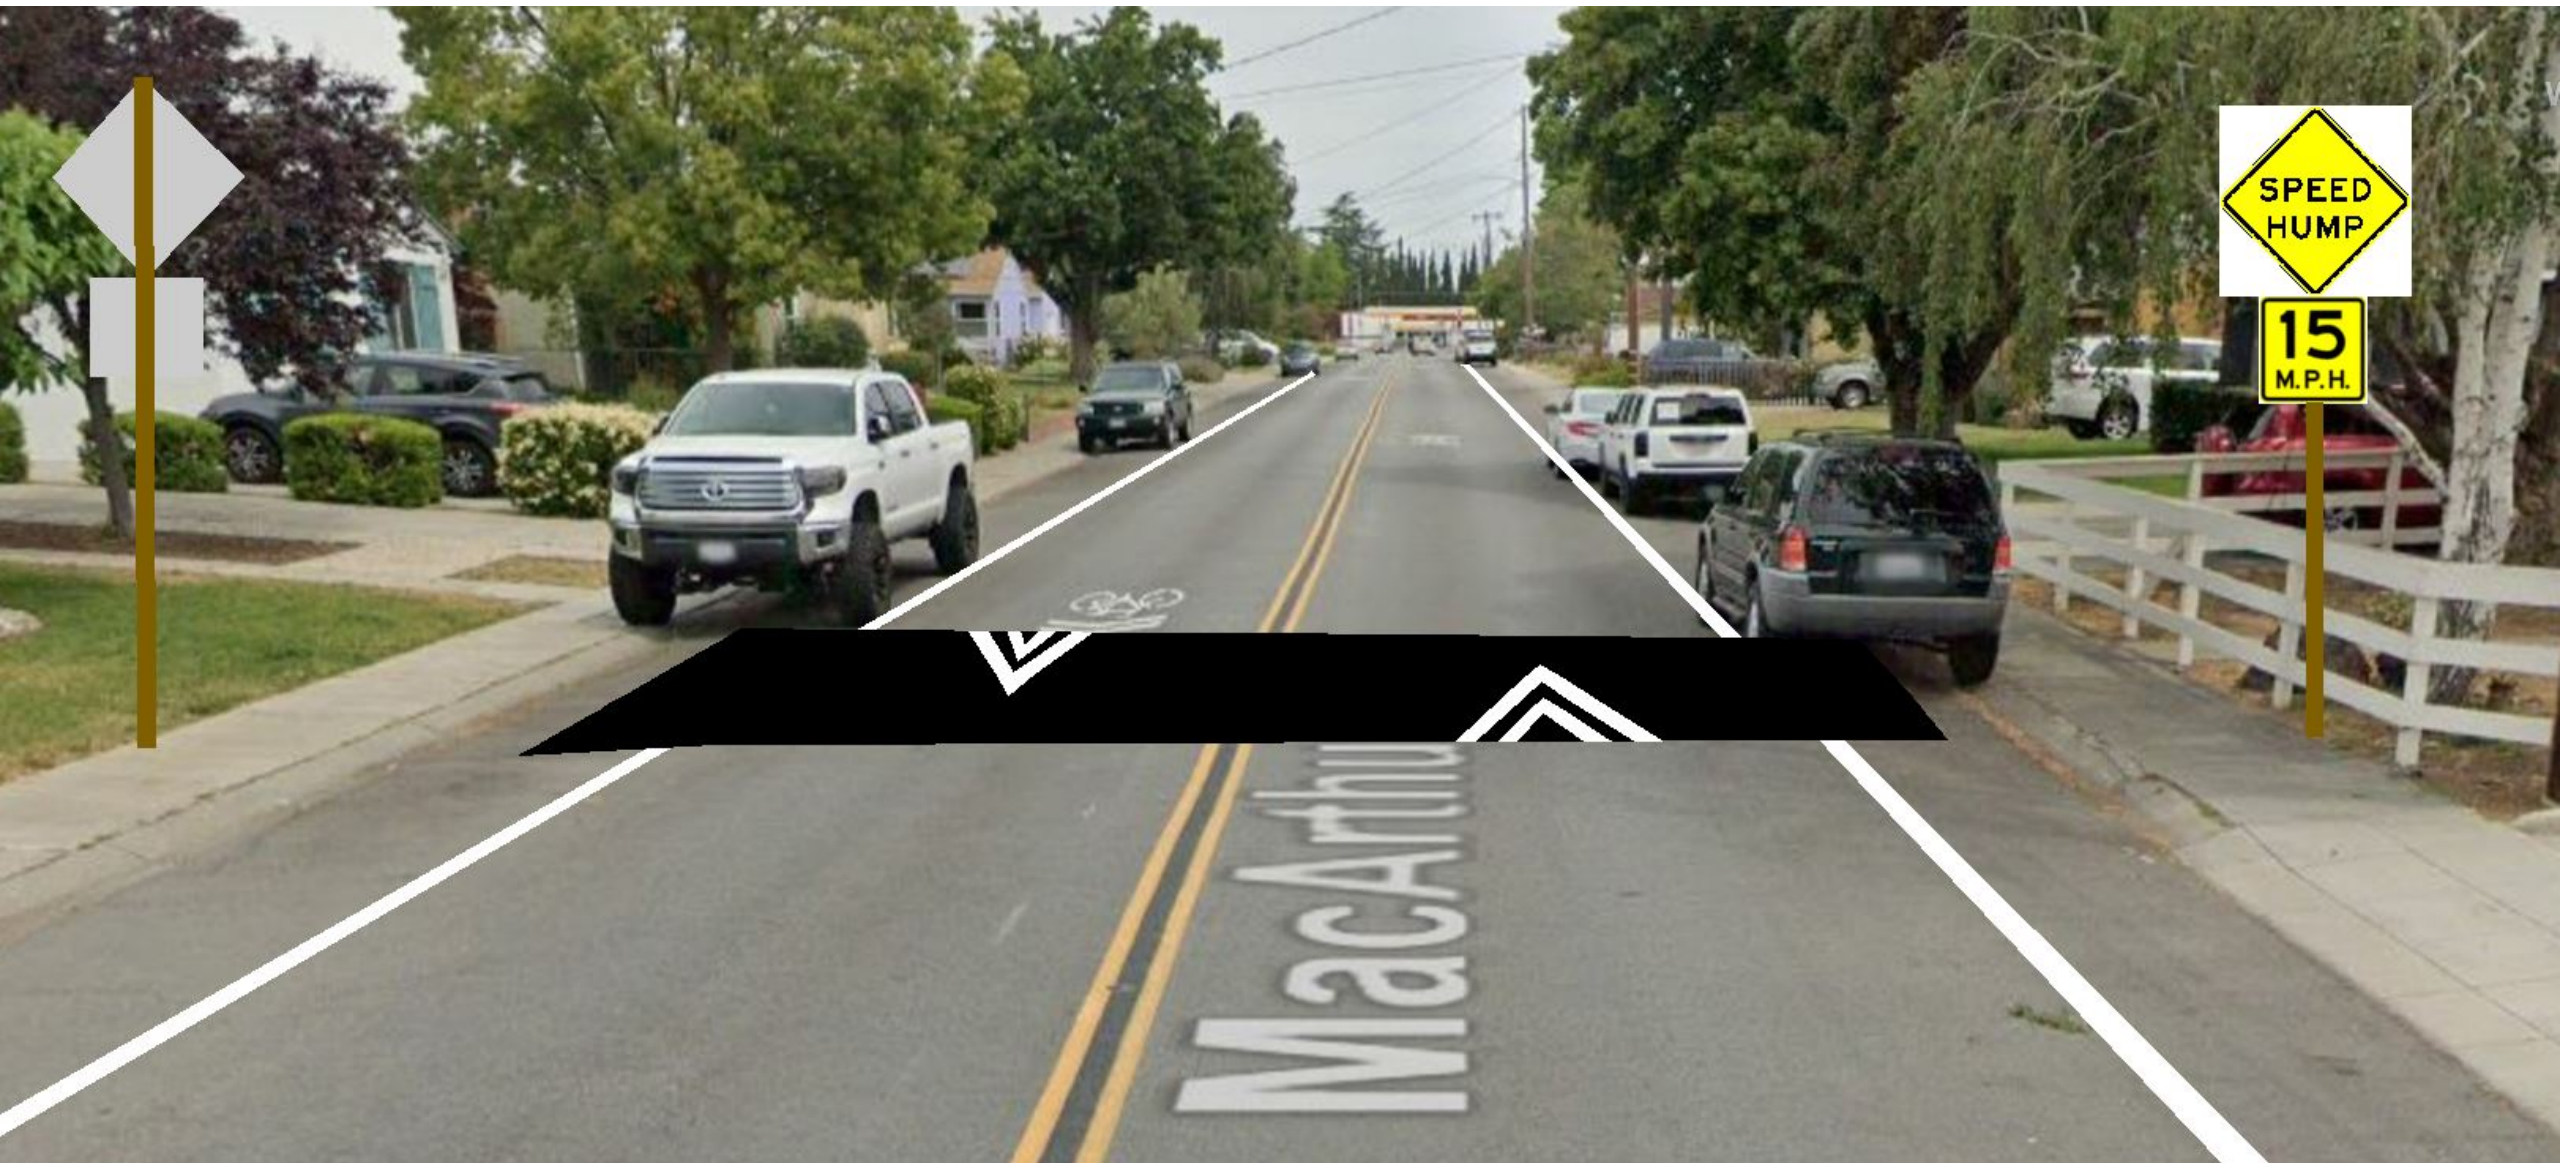

MacArthur Avenue

Speed Hump Location (Rendering)

Potential Alternate Speed Hump Location (Rendering)

Speed Feedback Display Sign (Rendering) Location to be determined

Next Steps

- Department will reach out to the residents on MacArthur Ave. impacted by the new speed hump location
- Final plans for MacArthur Ave. will be posted online on the project website at <https://www.sccgov.org/sites/rda/PnS/CP/Pages/MacArthur.aspx>.
- Procure the Speed Display Signs and Speed Humps
- Schedule installation
- Continue to monitor the roadway after installation

Q & A
